Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 15-21, drawn to a method for producing a plant with deregulated invertase activity by transformation with an nucleic acid encoding an invertase inhibitor and plants so obtained.

Group II, claim(s) 14, drawn to a method for producing a vector encoding an invertase inhibitor, wherein the method involves isolating a nucleic acid encoding an invertase inhibitor.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: They fail to share a special technical feature.

The technical feature of the methods appears to be that they both relate to a nucleic acid encoding an invertase inhibitor. However, Greiner et al (1998, Plant Physiol. 116:733-742; included in the IDS filed with the application) teach a nucleic acid encoding the tobacco apoplasmic invertase inhibitor (Figure 2). Additionally, the method of claim 1 is taught by Rausch et al (WO 98/04722, cited in the PCT search report; see abstract).

Therefore the technical feature linking the inventions of Groups I-II does not constitute a special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the prior art.

Art Unit: 1638

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
